KINGS COUNTY REPUBLICAN GENERAL COM-

MITTEE.

\*\*A meeting of this body was held last night at No. 9 Court-st., E. L. Sanderson, esq., in the chair. A resolution indersing the nominations of the Republican state Convention, and calling upon the Republicans of Emer County to give them an earnest and hearty sup-

State Convention, and calling upon the Explanation Strings County to give them an carnest and hearty support, was unanimously adopted.

A Special Committee, consisting of Messrs, Coit, Hoyt, and Reeve was appointed to consider the refusal of the Board of Aldernion to tender the hospitalities of the city to Gen. Sheridan, and to draft resolutions expressive of the some of this Committee in relation thereto. The Committee subsequently reported the following resolutions:

Resolved, That is view. Philip II. Sheridan, who has this day bonned for City of Browley with his presence, we recognize not only the british and distinguished sodier, but also the fact that of the city is sen to Steharre the duties of the perimes he native heartily approve, and hereby inderse and adopt, the od vestming by Aderman filles in the Board of Adermas

ediction offered yesterthy by Alderman Blbs in the Board of Alderman, of rejected by the Democratic majority. Resolved: That, increasing with the clintens of Brooklyn generally, we improve the state of the state of the continued authority of live of the state of the continued authority of live of the state of the continued authority of the continued authority of the state of the

ous chicited remarks from Messrs. Celt. ticher, and others, and were unanimously adopted er which the Committee went into Executive Session. KINGS COUNTY DEMOCRACY.

KINGS COUNTY DEMOCRACY.

The Kings County Democratic General Committee held a special meeting last hight and appointed delegates as follows to the Judiciary Convention to be held at Newburgh on the 8th inst.; Horace P. Whitney, James B. Craigh, Iames Conroy, Ed. Eagle, Thomas Murphy, Luke O'Riley, Geo. S. Fox, and James F. Pearce. An altempt was again made to fuse the National General Committee with the Regulars, but without success, and it is now confessed that a split in the party is inevitable.

ACTION OF THE LIQUOR DEALERS' ASSOCIATION. The New-York Liquor-Dealers' Association inst night, Vice-President John H. Titgen in the chair, listened to a report from the Executive Committee deputed to attend the Constitutional Convention at Albany. The Committee reported that, owing to the liness of exteeorder Smith, their counsel, they had failed to procure a hearing before the Committee appointed by the Convention. They had, however, prepared a brief synopsis of the grievances of which they complained, and from which they sought rehef. They had further agreed to this declaration as the platform by which they would abide at the Fall elections, and on adhesion to which would depend their support of the different caudidates. The declaration runs: "First: We ask that the question of the prohibition of the sale of wines, sprituous and malt liquors shall be definitely settled by a clause or clauses in the State Constitution, so that for the future, or as least until the time appointed for another revision, the validity of restrictive or prohibitory laws, if any such be attempted to be enacted by the Legislature, shall not be as heretofore, a possible question to ast night, Vice-President John H. Titgen in the chair, validity of restrictive or prohibitory laws. It any such be attempted to be enacted by the Legislature, shall not be as heretofore, a possible question to be settled by any courts of law. Secondly, we ask that no restrictions or disabilities may be allowed to be imposed upon the traffic in wines, spirituous, or mail fiquors, except such as may be absolutely required looking to the preservation of peace, quiet, and good order, at the exact places of use or consumption. Thirdly, we ask that the legislature may be prevented from making any but uniform laws on the subject of such restrictions, or the rates of taxation commonly known as Excise, consequent thereon, and that the execution of such laws and the collection of such excise shall only be through the medium of the local authorities of the county." Several speakers advocated the advisability of the liquor-dealers making themselves felt as a body at the approaching election, and eventually it was unanimously agreed "That the Executive Committee be instructed to propound to candidates for the next Legislature categorical questions as to the position of such candidate in regard to the question of restrictive or prohibitory legislation, and especially in regard to the matter of the present Metropolitan Excise Law." The Association adjourned to the call of the Executive Committee.

the administration of the National Government. The third denounces Congress for passing unconstitutional laws. The fourth expresses doubt of the Republicans having sympathy for the soldiers. The fifth proclaims the doctrine that American etizens when abroad shall not be subject to arrest for words spoken at home. This was received with shouts from the Fenians. The sixth promises the cooperation of the Democrats of Massachusetts in the uprising throughout the country. The seventh expresses alarm at the increase of the State debt. The eighth indorses the labor movement. The minth declares that the Democratic party is opposed to infractions of individual rights, and the enforcement of the law through the espionage of paid spies as infamous. The resolutions were severally and as a whole adopted, the Convention giving three hearty cheers.

The Committee on Credentials reported 219 towns, represented by 963 delegates.

PENNSYLVANIA.

REPUBLICAN MEETING AT FRANKFORD. Philadelphia, Oct. 1.-A great meeting was eld at Frankford on Monday night, and addressed by James M. Scovel and Col. Jordan, Chairman of the State Central Committee of Pennsylvania. Resolutions de-manding the impeachment of Andrew Johnson were passed unanimously.

NEW-JERSEY.

BURLINGTON COUNTY REPUBLICAN CONVENTION. The Burlington County Convention of Unionists was held at Mount Holly on Monday. Henry J. Irick, for several years member of the Assembly, was nominated for the State Senate. Job Gaskell will probably be the Democratic nominee. John B. Hankinson was nominthe Democratic nominee. John B. Hankinson was nominated for Sherial. In the District Convention, Assembly nominations were made as follows: Hd District, George Barton; Hld District, Emor Roberts (President of the Barllegton County Agricultural Society; IVth District, Andrew J. Fort (re-nominated for third term). Resolutions were adopted to the effect that "recognizing the one paramount political issue of the day to be whether patriots or trattors are to govern our country, we hold that while that issue is pending all other questions, however important they may be, which if missed, may impede its rightful settlement, should for the present be deferred." They regard it as a subject of vital importance that neither traitors nor those who sympathize with them should be permitted to obtain control at this time of our State affairs.

State affairs.

A mass meeting of Republicans is to be held in Newark this evening at Washington-st. Hall, to be addressed by the Hon. F. T. Frelinghuyson, the Hon. F. J. Fithing of New York, and Mr. Edward Sealy. On Friday evening another mass meeting will be held at Oraton Hall, to be addressed by the Hon. George M. Robeson, Attorney-General, and, it is expected, by the Hon. John Davidson of Elizabeth. On Monday evening the campaign will be closed by a grand torchlight procession and out-door meeting. The following tickets have been nominated by the Republicans:

Ho Wash.—Adderman, John H. Ense: Chosen Freeholder, David J. Cansich, Selsod Campissobers, Fired. W. Hinorit Ward Clera, Gastana Schak, Beard of Excise, Philip Sonner, Constables, John Post, Isaac Thompson, John W. Ward.

THE PUBLIC HEALTH.

DR. HARRIS'S WEEKLY REPORT. In the week that ended on Saturday last there were only 437 deaths in New-York and 263 in Brooklyn. ixty-six of the deaths in the former city were in the pube institutions, 42 being tumaies of Island asylums and hostutions, and 20 were in asylums and streets beyond the turious, and 20 were in a symms and streets beyond the city limits. This mortality, estimated upon the census of 1865, is equivalent to a yearly death-rate of 28,26 in 1,000 in New-York, and 32.14 in 1,000 in Brooklyn—excluding the mortality in certain county asylmas. In the corresponding week last year there were 487 in New-York and 206 in Brooklyn; and in the 13 years preceding the present, in New-York, the average number of deaths in the corre-Brooklyn; and in the 1s years proceding the present, in New York, the average number of deaths in the corresponding week that in september) was 461, or 27 more than last week. Diarrhead disorders have decreased, and last week destroyed only 75 lives in New 4 ork and 3 in Brooklyn. In the former city 156 infants, or 34.32 per cent, perished in the first year of childhood; 245, or 56.98 per cent of the dead were under five years of age; while in Brooklyn, the infantile mortality amounted to 25.08. The zymotic poisons, so called, killed 12s persons, or 25.60 per cent of all that died in New York, and 65, or 36 per cent of the total in Brooklyn. The records of zymotic diseases show that the city is enjoying unusual health. And if it were practicable in this weekly review to map out the localities and classes in which the preventable causes of death and excessive mortality occur, it would plainly be seen that in the cleanly and well-housed half of the city the death-rate is now less than 20 per 1,000, while in the remaining half—tenant population—it is about 36 per 1,000. All American cilies north of the yellow fever zone—of the Gulf States—are unusually healthy and free from epidemics. The deaths in New-Orierus numbered 520 the second week in September, and will probably reach the epidemic maximum the present week. We have anthentic information that about 12,000 persons are now sick with the fever in that city. The total population now remaining there is scarcely 150,000. It is believed the deaths will not exceed 650 the past seven days. If such rates of sickness and death were prevailing in New-York, there would be more than 50,00 on beds of sickness. Humanity pleads for the sufferers. No other epidemic, and destructive as that of velocities are a subtle and destructive as that of velocities are a subtle and destructive as that of velocities.

A CALL FROM THE NETHERLANDS GOVERNMENT FOR SANITARY INFORMATION.

WASHINGTON, Oct. 1 .- At the instance of the Netherlands Government, the Secretary of State bassent the following circular letter to the Mayors of our princi-

DEFARTMENT OF STATE, WASHINGTON, Oct. 1, 1887.

I have the honor to inform you that I have received an application from the Government of the Netherlands, through the Minister of that country, Mr. A. Mazei, for copies of all municipal or other laves, regulations, and ordinances for the preservation or improvement of the sanitary condition of our cities. It is desirable that the fullest and most precise information on the subject of all precautionary measures, and of sewerage, and the methods of drawing off or removal of all feral and filthy matters, and any description of the organization, workings, and functions of the fearls of Health, should be embraced and any description of the organization, workings, and functions of the Boards of Health, should be embraced in the collection to be made. I will, consequently, be greatly obliged for any information, published or otherwise, which it may be in your power to furnish, bearing upon these subjects; and as the Government of the Netherlands contemplates making a thorough study of the question of improving the sainbrious condition of cities, when such information from the principal countries shall have been accumulated, it is probable that the results of these investigations will be beneficial to all. The well-known thoroughness and ability with which the Netherland authorities conduct such matters, renders it desirable that these investigations should be fully accurate and responsible.

MASSACHUSETTS.

THE DEMOCRATIC STATE CONVENTION—JOIN QUINCY ADAM NOMINATED FOR GOVERNOR.—THE RESOLUTIONS.

WORGESTER, Mass., Oct. 1.—The Massachusetts leading of the Convention met in Mechanics Hall shortly after it o'clock this forenom. About 600 diegates were on the floor. Mr. H. G. Parker of Combridge was chosen President of the Convention. Upon bridge was chosen President of the Convention of the Conve The regular monthly meetings of this Society were resumed last evening. A large and intelligent auditory of both sexes assembled to listen to the reading of a

in 1852, Capt. Marcy of the United States Army succeeded in verytying by actual surveys what had in the meantame become pretty well known, through reports of trappers and Indians, as to the real sources of the mysterious river.

The lecture, which gave in detail the circumstances of the events which we have briefly aliaded to, contained also a large amount of valuable information regarding the country of which it treated, and was listened to with manifest interest by the andience, who at its close passed a manimous vote of thanks to the author, and the society requested a copy of the manuscript for preservation in its archives. The substance of the lecture was taken from a book recently written by Col. Meline, entitled "Two Thousand Miles on Horseback," relating a series of personal adventures in this interesting region, with observations and information collected during the time, which will shortly be published.

CHURCH JUBILEE AT NEW-BRUNSWICK.

THE ONE HUNDRED AND PIFTIETH YEAR OF THE FIRST REFORMED DUTCH CHURCH. From Our Special Correspondent. NEW-BRUNSWICK, N. J., October 1, 1867.

An hour's ride through the variefl scenery of Eastern New-Jersey brought us to this suburban city. To one who cherishes it as the home of his alma mater, and the place of his residence during several of the most interesting years of his life, there is a quiet pleasure in again beholding the familiar scenes, and also in making the changes which the hands of time, and improvement or innovation have made upon them. Wide and well-shaded streets, lined with neat and attractive cottages, and often with more pretentious buildings, cover many of the hills, which, in the days of our studentsing, were uncultivated commons. The College cellifice wears the same face as in days of yore, but its surroundings exhibit the hand of tasteful improvement. Shade trees, pleasant walks, from railings, and new buildings, greatly needed, impross the visitor with a comfortable sense of improvement. North of the College grounds, what once formed a wide waste, is now studded with tasteful and comfortable buildings, among which stand conspicuous, Hertzoy Hall, devoted to the purposes of the Theological School and the residences of the Professors. These changes make a decided advance and are pleasant to contemplate.

The churches of the town show also pleasant indications of prosperity. The large and tasteful edifice of the and the place of his residence during several of the most

The churches of the town show also pleasant indica-tions of prosperity. The large and tasteful edifice of the Second Reformed Dutch Church adorns a spot which was once a repellant pit. The First Church has been entirely remodified and greatly improved. So with the Protestant Episcopal. The Second Presbyterian Church have built a neat house in the southern part of the town. While the Methodists, ever enistripping others in their enterprise, have erected several new and attractive churches. Where such a commendable spirit of enterprise has been ex-hibited, it seems fitting that the oldest one of these churches shopid invite her sons and friends to men, with

churches should invite her sons and friends to meet wind the rande exchange congratulations over the improved face of things, and commemorate the varied steps by which this prosperity has been reached. In answer to her he vitation, a large number of strangers from abroad, as well as residents of neighboring towns, gathered with the large congregation of this church in their spacebase edifice at 10 o'clock this morning. The exercises opened with an appropriated prayer by the Rev. beane Ferris, D. D., of New York. A Celebration Hymn, written by the Rev. Peter Styker of New-York, beane Ferris, by the Rev. Peter Styker of New-York, and televeral and interesting discourse, giving in delivered an interesting discourse, giving in delivered an interesting discourse, giving in delivered an interesting discourse, giving in delivered and my interesting incidents of the secular history of the fortunes of the church, and interesting discourse, giving in delivered and my interesting incidents of the secular history of the fortunes of the church, and interesting discourse, giving in delivered and my interesting incidents of the secular history of the fortunes of the church, and interesting discourse, giving in the following Congress, while a portion of the 5-29 loan was yet untaken, another 10-40 loan was yet untaken, a

sable, and the Presbyterian Church was fairned. The Rev. Jacob R. Hardenburgh was called as paster in 1785, and was made President of the College. His health was poor and he died in 1790. The Rev. Ira Condict was called in 1793, and preached entirely in the English language. He mas a laborious paster and preached his last sermon in the old Church, which was taken down the very week he died. The present edifies was erected through the enterprise of two men, John Clark and Staats Van Deusen who assumed the whole pecuniary responsibility. of the day. The Rev. 100s, per and didressed the assembly, giving many pleasant reministences of his student life in the Seminary, and of the precessors and pasters of this church. The Rev. Prof. Wood-ridge offered the congratuations of the eilest Theological Seminary in the United States, and spoke of the reiping hand which this church has ever extended to the Charleston Seminary.

Theological Seminary.

The Rev. Charles B. Hageman, D. D., of Poughkeepsie, spoke in behalf of the ministry who have arisen from this Church, and adverted to his experience of the great revival in 1837, when his whole class were converted, and the greater part gave themselves to the ministerial

The Rev. Wm. H. Campbell, D. D., President of Rutgers College, represented that The Rev. Wm. H. Campbell, D. D., President of Rutgers College, represented that institution. He spoke of the healthful influence of this Church for the past 15e years. The Rev. P. D. Van Cleef of Jersey City spoke in behalf of the ministry raised up from this church, and gave an interesting account of his personal experience. Prof. Marray read a humorous and willy poem, descriptive of the olden time. The Rev. Prof. D. D. Demarest presented the congratulations of the daughters of this church, and deprecated the insinuations often thrown out respecting the negligence of the interests of the interests of the church by the fathers. They had done well to keep the church alive under the obstacles she encountered. Addresses were also made by the Rev. Pr. Taylor of Bergen, the Rev. David Cole, the Rev. P. D. Oakey, the Rev. Wm. H. Ten Eyek, and others.

In the evening a large andience assembled to hear Chanceller Ferris's address. The devotional services were performed by the Rev. Prof. Joseph F. Berg. A hymm, composed by the Rev. J. E. Steele, was sung. Dr. Ferris remarked that 46 years ago, he, a young man of 224 years old, and but 10 months out of the Seminary, took charge of this church, having me families, and three Theological Professors and about 30 students. Among his audience After a few preliminary remarks, the speaker discoursed in a cleaser discoursed.

cal Professors and about 30 students. Among his audience
After a few preliminary remarks, the speaker discoursed
in a pleasant discussive way of his ministry, his hearers,
his helpers, and his co-laborers. He portrayed in graphic
terms the characters of all these parties, and gave an
array of incidents which entranced the audience.
With the usual devotional exercises, this most interesting anniversary closed.

HEAVY ROBBERY IN ST. LOUIS. St. Louis, Oct. 1.-The liquor house of Hatch, Maurice & Co. was entered by burglars last night, and the safe was robbed of \$1,000 in money. A large quantity of note and valuable papers, two watches, a diamond pin valued at \$4,000, and \$55,000 in Government bonds were

left behind by the burglars. ROBBERY OF A PROVIDENCE BANK.

PROVIDENCE, R. I., Oct. 1.- Twenty-two thousand dollars worth of Government were adroidly ab-Stracted from the Cashier's desk of the First National Bank about 1 o'clock to-day. Several banking houses were visited by three or four strangers on frivolous er-rands, but in only this case did they succeed in ac-complishing their olgect.

Among the machines in operation which attract attention at the Fair of the American Institute, is a eli-acting machine for winding sewing-thread on spools. The ingenuity of the machine is remarkable. The usual, or as one may say now, the old way, of winding spool thread was by hand, one spool at a time; but the new machine winds six or eight at once it lifts up the empty speel, places it on the spindle, starts the winding with exact regularity, puts the correct length on the spools, stops when the 200 yards are wound, cuts the little notch to prevent the thread unwinding, places the thread in a, cuts it, knocks off the wound spool, and replaces it with an empty one, and goes on. All that the operator requires to do is to place the empty spool in its place, and keep up the supply of thread to be wound. The inventor of this labor-saving machine is the well-known Mr. Wil-liam Wield, and it is patented in this country. The machine is eximbited by the "Clark" Thread Company of Newark. N. J., who have several in operation in their extensive manufactory. The machine spools any length, and silk and lines thread equally with cotton.

Mr. and Mrs. Stanton are the guests of Mr.

A LETTER FROM GEN. BUTLER.

OUR NATIONAL FINANCES.

SIR: A friend has sent me a slip from your Weekly, containing THE TRIBUNE'S reply to my letter on the subject of National finances.

My high respect for the Editor, the paper, and its readers, prompts me to a rejoinder which may contain a little more clearly the exact statement of the question at issue between us.

My most earnest desire is that the Government shall fully, honestly, and exactly meet every one of its obligations, according to the exact and equitable condition of every contract it has made with its creditors. I would advocate nothing short of this, and justice and good faith require nothing more.

I asserted that the 5-20 bonds were payable as to their principal in currency, and not in gold. This THE TRIBUNE denies, and insists that they are payable in gold.

The whole question is, what was the contract between the Government and its creditors !

The first \$50,000,000 loan of August, 1861, was issued at 7.30 interest-principal and interest payable in gold-was so taken and so paid. When the 5-20 loan bill was passed, it established the interest at six per cent, payable in gold, but said nothing as to the currency in which the principal was to be paid.

When the 5-20 loan was before Congress, Judge Spanlding of Ohio asked Mr. Stevens, Chairman of the Committee on Appropriations who reported it, if the principal of these bonds was payable in gold, as well as the interest? To which Mr. Stevens replied, that the principal was not payable in gold.

At the same session, when the first 5-20 loan bill was passed, the legal tender act was also passed, providing for the issue of what are now known as greenbacks." It was therein provided and so printed on the back of every note that it is legal ender for every debt public and private, except duties on imports and the interest on the public debt. If it was not to be received for principal of the public debt, why except the interest? Besides, the act made it receivable by the United

States for all its loans, and specially convertible into

UNE, but it was so advertised; and I assume Jay Cooke took advantage of so valuable a medium of advertising as your paper, to make known that important fact of the desirability of the 10-40 loan, as he certainly did so advertise in other papers.

You further say: "Gen. Butler uttered no word of dissent then," i. e., when the loan was upon the market. True, because there was no occasion. And still another, and perhaps equally available answer-Gen. Butler at that time had other public interests in another branch of the service to contemplate and

Again: You do not deny that this 5-20 loan, in whatever it is payable, is now due at the option of the United States. That is, the five years have passed at the end of which, by their terms, the United States reserved the right to pay them; and the Government has the right to pay them to-day in whatever currency the contract calls for-whether gold or paper.

If these bonds are payable in gold, why are they selling at from 108 to 112 in currency when gold is worth the selling at from 108 to 112 in currency when gold is worth the selling at from 108 to 112 in currency when gold is If the United States should now choose to exer-

ise its right to pay them—(which would seem to be at Wasnet, Buchles Countr, Mr. Charas B. Galagher to Mass Jose wise, as they are untaxable, so that their interest is, wise, as they are untaxable, so that their interest is, in fact, from one to three per cent, higher than six per cent to the holder -in that case, why should the Government be called upon to pay them in gold or its equivalent in currency, say 143, when any body else can buy them at 112? Why should the tax-payers be called upon to pay

the holder from 20 to 40 per cent, more in order to redeem these bonds than, as they now have the right to do, the capitalist is now willing to sell them for to any body else? Assuming that no man can doubt, in view of the

legislation of Congress, and the words of the contract, that these bonds are payable in currency, my next proposition is, That the United States shall issue a new loan upon such terms as sound finance shall show to be most advantageous, and, with the proceeds pay its 5-20 creditors, and thus reduce the rate of interest, while at the same time it keeps exact faith in its contracts.

I am unable to see that this is "a dodge" or "repudiation." "which is a longer synomym for rascality," or anything "irreconcilable with common honesty." These be hard words, my masters." As I do not think they add anything to the strength of THE Tribune's argument upon a legal question relating to finance, I certainly can neither reply to nor return

I only propose to reply to the specific argument of THE TRIBUNE, and, therefore, refrain from disussing any of the collateral branches of this subject.

May I ask-as the question is one of great moment to the country-you in justice and fairness to give this letter the same conspicuous insertion in THE DAILY, WEEKLY, and SEMI-WEEKLY TRIBUNE, which

"Common honesty" would seem to require this. Very truly Yours, E. F. BUTLER.

you gave the attack !

Grandiflors, from which this famous perfume is derived, is a native of South America, and the most ederiferous of tropical flowers. The aroma of the living petals, gathered when the night dews are upon them, is fixed, intensified and rendered perpetual in the extract. PHALON & SON, New-York

sold by all druggiote.

460 Miles OF THE UNION PACIFIC RAILROAD,

RUNNING WEST FROM OMARIA ACROSS THE CONTINENT are now completed, and it is expected that the remaining 57 miles, to carry the track to the base of the Racky Mountains, will be finished early rarry the track to the base of the facty mountains, in October. Contracts have already been made for rock-cuttings beyond, to be done during the Winter. The work is being pushed forward with equal energy on the California end of the route, under the direction of communicated that the two roads will meet in 1870, thus completing the entral Pacific Company, commencing at Sacramento, and it is conductly expected that the two roads will meet in 1870, thus completing the entire grand line connecting the Atlantic and Pacific Oceans, on which THIRTY-FIVE MILLION DOLLARS in cash have already become expended. From the liberal Government aid, the wealth and energy of the stockholders, and the ready market for the First Mortgage Honds, there is no want of funds for the most vigorous prosecution of the sork, and its early completion is as certain as any future business ores

NET EARNINGS OF THE UNION PA-CIFIC RAILROAD. During the quarter ending July 31 of the current tear an average 225 miles of the Union Pacific Railroad was in operation. The Supor

temient's report above the following result:
